

NEW-YORKISMS.

From Our Own Correspondent. NEW YORK, Sept. 3, 1870. Returning to Town. The rapidly with which people who, for the last three months, have been out of town, are now suddenly returning, is almost the only local novelty worth mentioning. Just at present the city is enjoying a lull preparatory to the beginning of the fall and winter campaign. It is not yet full enough of people to justify the statement that the regular season has commenced—the season of churches and theatres, of balls and parties, and of that social interchange of visit and gossip that announces that the harvest is past and the summer is ended. As a habitual rider up and down in the Broadway stages, however, I can aver that one of the signs of returning citizens is evident in the increased number of portly and well-dressed gentlemen who appear almost every morning in almost the self-same seats, at almost the same moment, and who invariably display the well-known and well-worn season ticket. That may be considered a very good criterion.

The "Free Press" is the name of the new evening newspaper that has appeared in this city. It is a large two-cent newspaper, and its principal features are that it pitches into the Herald, gives out mysterious hints as to Mrs. Vreeland and certain relations which it intimates the younger Bennett held with her, and makes war against Tammany, the "ring," and everything else by opposing which notoriety is to be gained. Its "pitchings" into the Herald are a beautiful instance of editorial rhetoric when the spigot of the passions is turned on and all the mean little animosities are allowed full flow. The revenge which the Herald takes is characteristic and amusing. It maintains a dead silence. No sting can provoke it into shaking its mane and showing fight. However true the shafts may come home it will not advertise its adversary by condescending to take notice of it.

Theodore Parkerism. It may seem strange that in so large a city as New York there should be so few churches that preach the principles advocated by that rare religious genius and great man, Theodore Parker. Whatever the sectarian adversaries of that wonderful man may say, I maintain that he was the greatest religious genius of the age, and that his teachings are purer, loftier, sublimer, and more fitted to lead the world aright than those of any other teacher of the present century. His is not the religion of creeds, books, churches, or forms. It is a Christianity derived directly from Jesus Christ, with all the theological impurities that have collected there during the lapse of ages squeezed deliberately out. The religion which he sought to establish, and which has its holy followers in Boston and other cities of New England, but which has comparatively few followers elsewhere, was the religion of nature and the religion of love. Still, you will find few Theodore Parkerites in New York at the present day. There are one or two Unitarian churches and one or two Universalist churches, but Theodore Parker was neither a Unitarian merely nor a Universalist merely, so that none of those churches actually represents his thought. Indeed, I do not believe that in all New York there is a single church the preacher of which can with truth be said to be a disciple of that great religious genius.

Miss Netta's Work. Miss Netta's work in securing the co-operation of the saleswomen in New York in obtaining an early-closing movement among the stores in this city where women are employed, does not meet with as much success as its importance demands. The Thursday night meetings at Plympton Hall are very slimly attended, the secret of the slowness being that many saleswomen are afraid to attend lest they should lose their places in consequence. Many of the sterner-hearted of the employers have threatened with immediate dismissal all who continue to lend their countenance to the early-closing movement. Consequently the society holds a strict watch over all such male applicants as manifest a desire to attend the meeting. No males are admitted, unless they give very good proof that they belong either to the press or to the Male Clerks' Early-closing Association. Employers have been detected in the miserable business of sending spies to watch and report proceedings and to give the names of such saleswomen as attend. As many of these saleswomen have poor relations dependent upon them, they cannot afford to lose even the wretchedly paying situations that they at present hold. Hence the meetings continue to be very ill attended, and the aspect of affairs is not as encouraging as it might be. The Workingmen's Association, however, are soon going to give a picnic. Miss Netta has been asked to attend and to deliver a lecture on the wants and woes of the class of women whom she represents. She has consented, and it is expected that she will make some extremely thrilling and useful revelations.

CITY ITEMS.

EVERYTHING IN THE WAY OF SUMMER CLOTHING NOW TO BE CLOSED OUT AT GUARANTEED LOWER PRICES THAN ELSEWHERE. Half-way between Fifth and Sixth streets, between TOWER HALL, No. 515 MARKET STREET. Do NOT DO IT, in fact you must not do it. It would be wrong for any lady or gentleman to attempt to purchase clothing for their sons or themselves without first examining the large and superior stock at Rockhill & Wilson's, and if they do not find it superior in quality, cut, make, and trimmings, and at lower price than any other clothing establishment in the city, don't purchase. Our beautiful and substantial all-wool heavy cloth and cassimeres, for fall and winter, which are going off by the stands, both in the city and country, all for \$15, coat, vest and pants. They astonish the trade to understand how we furnish them at the price. It is hardly necessary to say anything in regard to our customer department. That is so well and favorably known that every gentleman in the city is posted.

Rockhill & Wilson, Great Brown Stone Clothing Hall, Nos. 603 and 605 Chesnut street. Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for thirty years with never-failing safety and success by millions of mothers for their children. It relieves the child from pain, corrects acidity of the stomach, relieves wind colic, and, by giving rest and health to the child, comforts the mother.

Mr. William W. Cassidy, the jeweller at No. 5 South Second street, has one of the largest and most attractive stocks of all kinds of jewelry and silverware in the city. He has also on hand a fine assortment of the American Western Watches. Those who purchase at this store at the present time are certain to get the worth of their money.

American Hoop Factory and Lunch Room is an excellent institution for those who stay in B. town who do not wish to dine at the table d'hôte. This is but one of the many conveniences furnished the traveling public.

GROVER & BAKER.

This firm name is as familiar as a household word to the utmost limits of civilization, as representing the best Sewing Machine in the world. The peaceful victory which the Grover & Baker Sewing Machine Company have achieved over all competitors in this important field is vastly more glorious than those which are now being achieved on the bloody fields of France. The points of excellence in which the Grover & Baker are superior to all other sewing machines in use are numerous and striking, among which we may name the following:— Beauty and elasticity of stitch. Perfection and simplicity of machinery. Using both threads directly from the spools. No fastening of seams by hand and no waste of thread. Wide range of application without change of adjustment. The seam retains its beauty and firmness after washing and ironing. Besides doing all kinds of work done by other sewing machines, these machines execute the most beautiful and permanent embroidery and ornamental work.

The activity at the Philadelphia branch of this enormous concern, No. 730 Chesnut street (of which our esteemed townsman, George W. Eddy, Esq., is the accomplished and energetic manager), has continued without interruption throughout the summer, and the indications are that the autumn and winter sales of Grover & Baker sewing machines will largely exceed those of any former season.

MERIT

DR. FITLER'S

Vegetable Rheumatic Remedy.

RHEUMATISM AND NEURALGIA. Sufferers from these painful complaints have only themselves to blame if they permit their frames to be tortured, when a sovereign cure like DR. FITLER'S WONDERFUL RHEUMATIC REMEDY is within such easy reach of even the humblest in the land. As to its curative properties in Rheumatism, Gout and Neuralgia, no one, who is not wilfully blind, can entertain the shadow of a doubt. Thousands of the worst cases known to the medical faculty have been cured by it, and hundreds of the certificates given in its favor are from judges, lawyers, physicians, merchants, tradesmen, etc., in our very midst, who are living evidences of its miraculous power. It is sold everywhere, and rheumatic and neuralgic sufferers owe it to themselves to make a trial of its virtues.—Philadelphia Inquirer.

DOCTOR FITLER'S RHEUMATIC REMEDY. Among the various remedies prepared for the cure of Rheumatism there is none that can compare with Dr. FITLER'S. Compounded as it is by a regular practitioner of over thirty years' standing, the immense confidence that the public place in it is well and deservedly bestowed. Thousands of certificates have voluntarily been given in its favor, and many of the cures that it has made have been of cases that have been pronounced incurable by some of the most eminent physicians of the land. Scientific sufferers should try it. They will find it a positive specific for the cure of their painful ailment.—Philadelphia Sunday Times.

RHEUMATISM AND NEURALGIA. No more painful ailments afflict humanity than Rheumatism and Gout, and, until the advent of DR. FITLER'S GREAT REMEDY, no diseases were more difficult to cure. The patient, too, scientific research, and incessant application for years, however, of Dr. Fitler, have supplied the world with a specific in those complaints, whose goodly ministrations have made it a positive boon—a veritable Balm of Gilead—to suffering humanity. Thousands of the worst cases have been cured by it, and everywhere throughout the length and breadth of the land, it is hailed as the great, successful, and scientific prepared cure for Rheumatism and Neuralgia ever discovered.—New York World.

DR. FITLER'S RHEUMATIC REMEDY. Has exceeded all expectation, by its wonderful curative power. Persons who have exhausted both money and patience will be warranted, in writing, a complete, permanent cure. Thirty-seven years' experience in specially treating Rheumatism has produced this popular standard specific. Dr. Fitler graduated 1838, Diplomas at office, No. 29 South Fourth street.—Philadelphia Evening Star.

RHEUMATISM. This disease, once a terror to the afflicted, has lost, of late years, many of its fearful and frightful aspects. Since the introduction of DR. FITLER'S REMEDY, those sufferers from the disease have happily found a means of mastering the dread disorder. The use of this specific speedily drives every vestige of Rheumatism and Neuralgia from the system, and being purely vegetable, it not only cures those diseases thoroughly and effectively, but it also improves the general health, and leaves the system strengthened and invigorated. Rheumatic sufferers, by all means, should try it and prove its singular efficacy.—Cincinnati Enquirer.

DR. FITLER'S RHEUMATIC REMEDY. This great specific for the cure of Rheumatism and Neuralgia, since its introduction to the public, has met with a success unparalleled in the annals of medicine. Dr. Fitler, a graduate of the University of Pennsylvania of the year 1838, and a physician in active practice ever since, devoted years of patient research and experiment in perfecting it, and the cures that it has since made outnumber those of all other rheumatic remedies in the land combined. Thousands of certificates have been given of the wonderful cures it has effected of Rheumatism and Neuralgia, and throughout the land it is hailed by those suffering the tortures of those terrible diseases. Being purely vegetable, its use cannot injure the most delicate constitution, and those afflicted with Rheumatism or Neuralgia can safely try it, and with the assurance too that it will speedily bring them back to health.—Chicago Evening Post.

DR. FITLER. This eminent practitioner, by the discovery of his wonderful specific for Rheumatism and Neuralgia, has laid suffering humanity under a debt of gratitude that can hardly be repaid. Thousands of the most painful cases on record, of the diseases alluded to, have been cured by that marvelous preparation, and thousands more, who are now using it, are on the road to the same blissful condition of restored happiness and health. What has done for thousands of instances it can do again, and we say to all rheumatic sufferers—try it, be convinced and be cured.—St. Louis Democrat.
